USAGE GUIDELINES

As with any trademark, the ChattySnaps® marks should be used only as an adjective and not as a noun. For example, products should be referred to as: ChattySnaps® component parts or ChattySnaps® buttons.

In all instances, regardless of whether the ® is used, the “C” and “S” in “ChattySnaps®” need to be capitalized and should appear as one word.

Never incorporate the ChattySnaps® trademarks, wholly or partially, into a name that is not owned by Zambrini LLC. This includes company names, domain names, product brand names (that suggest or imply co-branding) or model numbers. **ChattySnaps® is correctly used in describing finished buttons as ChattySnaps® Buttons. Any other item used with ChattySnaps® must be described as in the following examples: Studs & Posts for ChattySnaps® Buttons, Button Machine Kit and Supplies for ChattySnaps® Buttons. An incorrect use of the name ChattySnaps® would be: ChattySnaps® Button Machine Kit and Supplies.**

Similarly, third parties should not use any of the marks in a manner more prominent than their own marks, or in any way that implies sponsorship, affiliation or endorsement by Zambrini, LLC.

Do not adopt marks or logos that are confusingly similar to the ChattySnaps® word marks or logos.
